

The Township of Beckwith

Annual Accessibility Status Report

12/17/2024

EXECUTIVE SUMMARY

The province of Ontario supports the rights of persons with disabilities of all ages to enjoy equal opportunity and to participate fully in the life of the province.

Currently, people with disabilities experience barriers daily that prevent them from joining in the mainstream of Ontario society. The percentage of the population with disabilities is expected to increase in the years to come.

Beckwith Township, along with the Government of Ontario is committed to working with society to build on what has already been achieved. People with disabilities have a right to equal treatment, without discrimination, in accordance with the Human Rights Code, addressed in several Ontario Statutes and regulations.

Ontario recognizes that accessibility is a shared responsibility and passed the Ontarians with Disabilities Act, 2001 on December 14th, 2001, requiring provincial and municipal governments to review their policies, services and programs by developing annual accessibility plans.

In 2005 the Province of Ontario expanded on the previous act of 2001. The Accessibility for Ontarians with Disabilities Act, 2005 now included the private sector as well as provincial and municipal governments. The provincial goal is to achieve accessibility for the people of Ontario with disabilities by the year 2025. The new act included five specific areas, all to be completed within their own specific time periods.

- Customer service
- Information and communications
- Employment
- Transportation
- Built environment
